

Discounted IDT pricing through the UBC BRC-Seq web portal

Log in at www.idtdna.com/ubc-brcseq to receive exclusive benefits on our products.

FREE SHIPPING ON ALL ORDERS*

- Payment by credit card or UBC PO
- Select from the following pick up locations:

BRC Reception
LSI Receiving B2.219
MSL 3rd Floor Reception

*No minimum purchase required. Excludes shipments containing dry ice, plate products and 1 L buffers. Enquire for details.

QUALITY YOU CAN RELY ON

- Free ESI mass spec on every oligo
- Accurate molecular weight and single peak guaranteed
- Free QC documentation available online

Custom desalted DNA oligos

Synthesis scale	Price/base (tubes)	Price/base (96-/384-well plates)	Maximum length
25 nmol	C\$0.20	C\$0.13	60 bases
100 nmol	C\$0.39	C\$0.20	80 bases
250 nmol	C\$0.80	C\$0.55	100 bases
1 µmol	C\$1.60	C\$1.10	100 bases

Other products available from IDT

- **Alt-R™ CRISPR-Cas9 System** for genome editing
- **xGen® Lockdown® Probes and Panels** for NGS target enrichment
- **PrimeTime® Gene Expression Master Mix and Probes** for qPCR
- **gBlocks® Gene Fragments** for a wide variety of molecular biology applications

Visit www.idtdna.com/ubc-brcseq to set up a new account and order through the portal. If you already have an IDT account, please be sure to use a different username and password when setting up your new portal account.
